

TRAMPOLINE NET

POLYAMIDE 3 mm - 13x13 mm

TECHNICAL DATA

MATERIAL	Polyamide featuring high tensile strength
MELTING POINT	230°C
ANTI-UV COATING	Resistance thanks to by the Ciba-Ceigy process at 600 KLY
CONSTRUCTION	Braided, knotless
THREAD WEIGHT	190 m/kg
FINISH	Ø 3 mm reinforcing overlock along the full circumference and polyamide twisted rope 10 mm
WEIGHT	800 gr/m ²
TENSILE STRENGTH	185 kg per mesh

The technical data provided are values of average as well as indicative nature, and may vary (+5%). The upper photograph is presented for illustration purpose only. The photograph has no contractual effect.
