

TRAMPOLINE NET

POLYESTER 4mm - 22 x 22mm

TECHNICAL DATA

MATERIAL	High-tenacity polyester
UV TREATMENT	Long-lasting Ciba-Geigy process 600KLY
MANUFACTURE	Knotless woven netting
FINISH	Reinforced overlapped edging with an 8mm polyamide rope threaded through
WEIGHT	650 gr/m ²
HUMIDITY ABSORPTION	30%
BREAKING STRENGTH	220 kilos per mesh

The technical specifications given are average values for guidance only and are subject to change (±5%)
