

**TRAMPOLINE NET**  
**POLYESTER 6 mm - 30x30 mm**

## TECHNICAL DATA

MATERIAL	Polyester featuring high tensile strength
ANTI-UV COATING	Resistance thanks to by the Ciba-Geigy process at 600 KLY
CONSTRUCTION	Braided, knotless
WEIGHT	626 gr/m <sup>2</sup>
WEIGHT CAPACITY	245 kg per mesh
FINISH	Ø Reinforcing overlock along the full circumference and polyester twisted rope 10 mm
MOISTURE ABSORPTION	30%

The technical data provided are values of average as well as indicative nature, and may vary (+5%). The upper photograph is presented for illustration purpose only. The photograph has no contractual effect.
